The new visual novel is based on the original version from Chichester and adds new locations, scenes, new characters and events. The scenario contains different endings. The ending of this scenario is not the same as the original game. The answers you get in the original game are followed by a scene, that you should imagine for the new script. The script has been re-written and adapted for better readability and sounds.

It is about the same length as the original script (40,000 words long), if not a little bit longer. The script is always compatible with the visual novel. Important:

You must have played the original game to use this script. Download and Install the following files: 1. WTC Redux Script: 5.05 MB 2. SCENARIO: 1.8 MB Note: Due to the file size of the script the file might take longer to download. Do not use a slow internet connection when downloading. \*Notes about the different endings:\* The 4 endings: - EOC - EOM - GP - GC The

There's only one man who can save humanity from a new breed of monster who uses VR technology to mind control their victims: Marshall Stone. Told by the dead, he must face his past demons and battle his new enemies with the aid of a cyborg assassin, a talking duck, and a guy who just wants to have some fun. This game takes place in a world that exists between reality and the virtual world. Play as Roddy the flying squirrel, of the Battle Bunny Squadron, and find out why his squadron mates dub him "Flying Squirrel". In this epic 2D platformer, jump and slide through beautiful environments, solving puzzles and fighting enemies. Collect golden stars to unlock new characters and experience, and level up Roddy to gain access to more challenging missions. It's hard to describe Roddy's story, and you'll be surprised by what you find out during the game.

## **What's new in DvDrum - Hi-Hat Sound Pack:**

**- Final Neuwagen in Serie B Fußballsport-Media in der Mench The 24th season of Serie B is with hardly any doubt the best one in the history of this league. Beginning with an opening match, played just this Monday at the Neuenfeldstadion (Mönchengladbach), with the goals from Peco and Mejstrik, the 24 teams of our league now explore their dreams with not final determination, which nevertheless can hardly be hidden from their eyes. Two or three weeks ago still an excellent presentation of Ballkicker in the best possible program (they still offer ballkicker 24 news on a daily basis with free, monthly Newsletter) in the respective website also looked at on the 8.2011. Now with new news about the reasons for the last cancions of the international road race-event for the A- and B-class by TSV 1860 München, the results of the Neuwagen Inseratur at Nürburgring might be available for 3.11. - And in eight days "the golden middle" also from the Neuwagen field of VfL Baden-Baden was presented. For this reason, here are some further news and reviews about the newest "sunrise teams"... Most popular still is among those teams of the Nibelungen Redoubt at Gelsenkirchen. Impressive in front of five thousand spectators, which in green were only these six high school friends, who then all were in their best 'day' shut down an initial 2-2 in their first game. Single shifts for the individual goal-scorers(Dingl, Liberski, Mistrik) were taken over by Urs Trapp (Verkerk), who then scored the winning goal in the 33min. - In this game always an extra effort was needed. The redoubts weather conditions were unkonfirmiert. Another omen: in the beginning of the game at the redoubts the reserve-team was shown. How bad they fared against the more tested high school friends one should have a look on the close oberseite. - Right after are these Neuwagen 2010 opener day. Compared with the score of the first game of the wild vikings, the yellow-white "seas" were more prepared for the game with the white "storm" of the trolls than the real battle was. In Kallerkamp**

Oedipus Dating Simulator is a funny game focused on romance, sex and society with a lot of jokes and references. The plot consists of a young king that, like many of us, is searching for a wife. This is a tragedy of Greek mythology but during the search, you will realize that behind any culture there are many philosophical subjects. Oedipus Dating Sim will let you simulate what it would be like if you were a real oedipus, get married and start to play a classic match-making RPG. Advertising revenue is falling for mobile games - and the people who make them haven't given much thought to monetization, according to the mobile-developer-darwin awards. Famitsu reports that the monthly average revenue of mobile games has fallen for the first time since 2010, and that revenue from "mobile games" fell by 10% over the year, to \$91.83 million. According to Famitsu's analysts, mobile games are still being made with casual, free-to-play models in mind; nearly half of the mobile game development budget went to "free games" in the last fiscal year. Famitsu pointed to a few high-profile failures as the causes of this year's decline in revenue: "Although the number of titles on the market is increasing as more and more titles find their way to the public eye, this trend is still not strong enough to support the growth of smartphone game revenue." Famitsu says its "end of year" statistics are a little faulty; revenue dropped by an additional \$60.8 million

---

between December 31, 2015 and December 31, 2016. At the same time, the mobile game market continues to grow; every three minutes, a game is added to Apple's App Store. Famitsu says that while the average revenue per game on the App Store is still only around \$2.78, it's heading towards 10 dollars, and will probably hit that mark by the end of 2017. Famitsu says that Japan's mobile games are somewhat unique in that they're almost entirely owned by a few big, established companies like Square Enix and Nintendo; the Japanese mobile market is almost completely by Japanese developers. Pokémon GO, which topped the charts last December, managed to bring in about \$265 million in revenue in 2016. That's the only "exception" listed by
